

# Introducing Sysgration's Qualcomm Edge AI Box : Revolutionizing Diagnostic Accuracy and Patient Care

We're excited to announce the launch of our Qualcomm Edge AI Box, specifically designed to elevate healthcare institutions' diagnostic precision and patient care efficiency. Leveraging advanced AI technology, it helps healthcare providers enhance diagnostic accuracy, reduce errors, and streamline patient monitoring.

## KEY BENEFITS OF THE QUALCOMM EDGE AI BOX:

- Enhanced Medical Imaging and Lesion Detection**  
 Our AI Box improves diagnostic accuracy through precise lesion detection and medical imaging segmentation, enabling faster, more informed clinical decisions. Expect a 10%-20% increase in diagnostic accuracy, allowing your teams to manage more cases efficiently.
- Intelligent Language Generation for Diagnostic Support**  
 With 24/7 patient consultation capabilities, the Qualcomm AI Box reduces the workload on healthcare staff by offering real-time, accurate health advice. This feature can improve patient satisfaction by 10%-20% while significantly lowering consultation costs, particularly in high-volume environments.
- Real-time Patient Monitoring for Enhanced Care**  
 Continuous patient monitoring, covering vital signs and physical activities, ensures prompt detection of health changes. This improves care quality by 10%-20% and reduces staff workload, ensuring patient safety while optimizing resource use.

## ROI: DRIVING EFFICIENCY AND SATISFACTION

Investing in the Qualcomm AI Box results in improved diagnostic precision, fewer errors, and lower operational costs. By automating routine tasks and increasing throughput, healthcare institutions can serve more patients with shorter wait times, improving overall satisfaction.

## SYSGRATION'S COMMITMENT: INNOVATION AND SUPPORT

Our commitment extends beyond cutting-edge technology. We offer comprehensive technical support for installation, system optimization, and ongoing maintenance, ensuring your healthcare institution benefits from continuous improvements.

For more details or to explore specific applications of the Qualcomm Edge AI Box in your institution, please contact me. We look forward to partnering with you to enhance patient care and diagnostic precision.
