

SYSGRATION'S NEW  
**QUALCOMM EDGE AI BOX**  
 HELPS THE RETAIL INDUSTRY  
 IMPROVE OPERATIONAL  
 EFFICIENCY AND CUSTOMER  
 EXPERIENCE

Introducing our latest product: the Qualcomm Edge AI Box, tailored for the retail industry to enhance security, precise advertising, and efficient inventory management. In a time of rapid digital transformation, AI technology offers retail enterprises a competitive edge. Our AI Box provides breakthrough solutions to prevent theft, enhance customer experience, and streamline inventory, leading to improved operational efficiency.

**KEY FEATURES OF THE QUALCOMM EDGE AI BOX:**

**Intelligent Anti-Theft Monitoring**

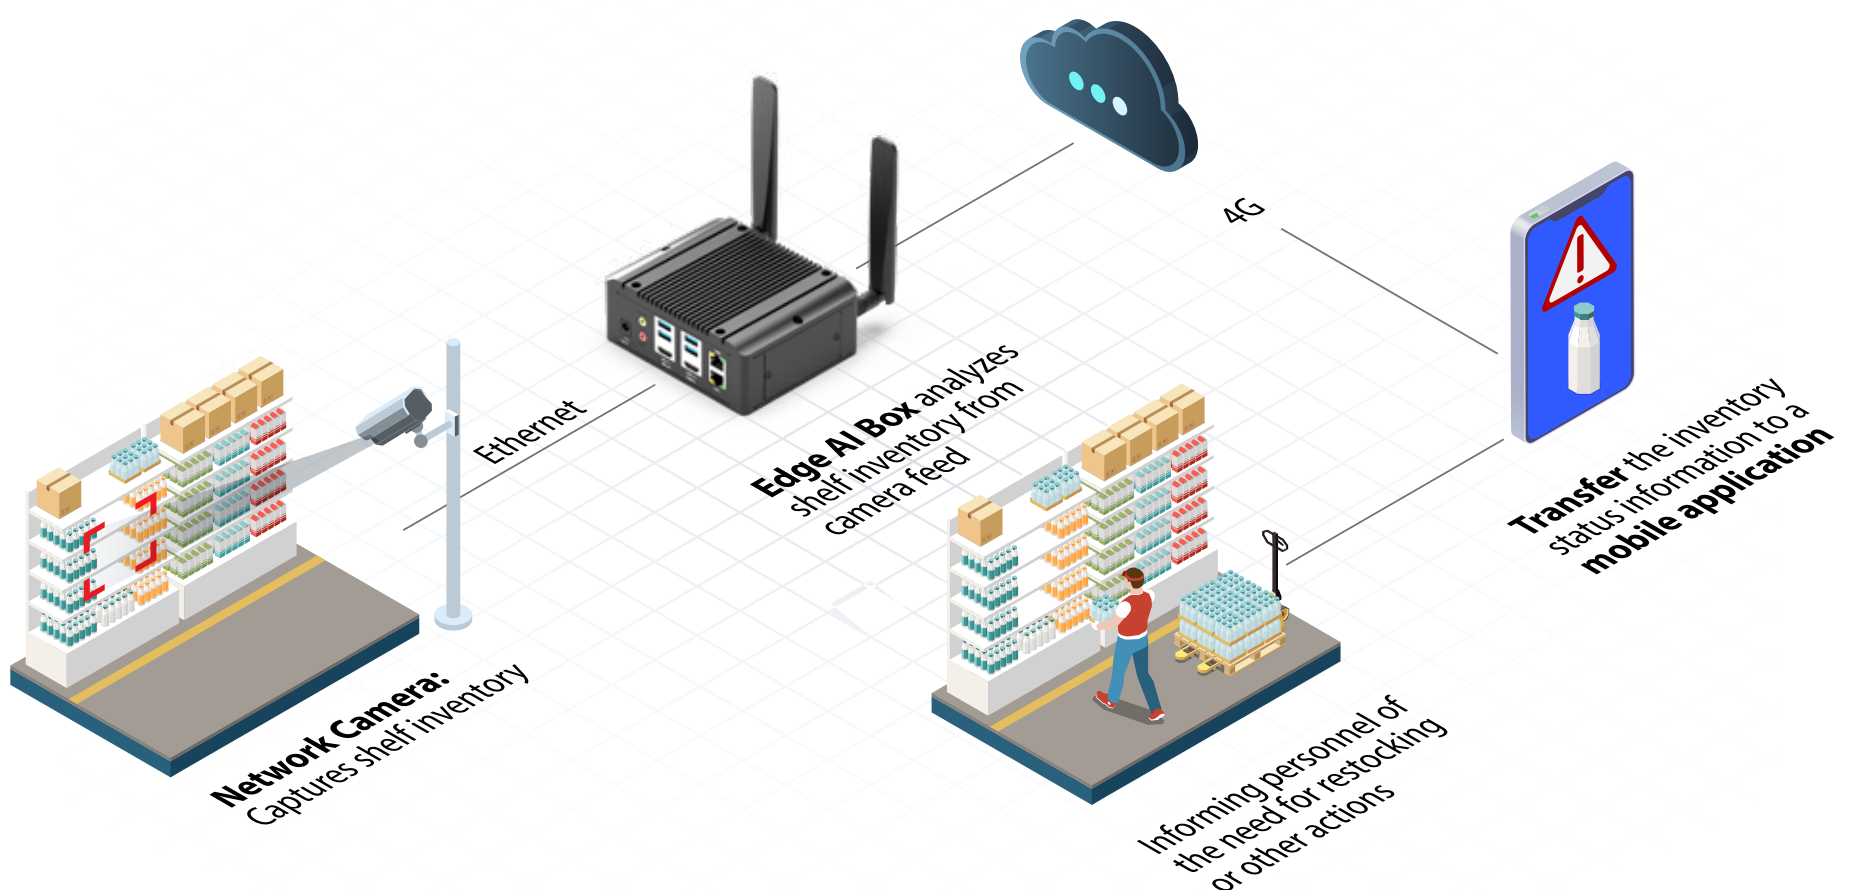

**01** Equipped with real-time behavior analysis, the AI Box detects and alerts suspicious actions instantly, helping reduce theft by up to 20% through AI-driven differentiation of normal and abnormal behavior.

**Targeted Advertising Push**

**02** Analyzing customer preferences, the AI Box displays personalized promotions on digital displays or mobile devices, boosting conversion rates by up to 15% and enhancing brand loyalty.

**Real-Time Shelf Monitoring and Inventory Management**

**03** Designed for inventory efficiency, the AI Box monitors stock levels, alerts on shortages, and minimizes excess inventory, improving replenishment efficiency by up to 20% and reducing costs.

**WHY CHOOSE SYSGRATION?**

With advanced AI technology and dedicated technical support, Sysgration is committed to helping retail companies optimize operations, increase revenue, and reduce costs. Our Qualcomm Edge AI Box empowers digital transformation, enabling retail enterprises to enhance efficiency and customer satisfaction.
